

GENERAL INFORMATION

Scientific Director

Andrea Piccin, MD, PhD
Haematology Department, San Maurizio Regional Hospital
Bolzano, South Tyrol, ITALY
Tel. + 39 0471 908388
E-mail: apiccin@gmail.com

Scientific Committee

Prof Klaus Eisendle
Prof Markus Herrmann
Prof Gilbert Spizzo

Congress Secretary and Provider (ID-100)

HighStyle Medical Congress Service
Piazza Mazzini Platz 43 – 39100 Bolzano/Bozen
Tel. + 39 0471 285400 – Fax + 39 0471 284477
E-mail: simonetta.colombo@highstyle.it

ECM Credits (Nr. 8)

ECM Event Nr. 7122 - For Physicians, Dentists, Scientists, Pharmacists,
Laboratory Technicians

Free registration on line (compulsory)

<https://www.ecmbz.it>

Or ask for the registration form to the Congress Secretary

Payment

Participation is free of charge

Language

English (No translation will be provided)

Venue

Conference Room – San Maurizio Central Hospital
Via L. Böhler Str. 5, 39100 Bolzano-Bozen

1st IMREST Meeting

Interdisciplinary Medical Research Center South Tyrol

*Conference Room
San Maurizio Central Hospital
Bolzano-Bozen*

October 29th, 2015

PROGRAM

08:30 **Lectio magistralis**

Facing new challenges for interdisciplinary clinical research

Günther Gastl (University of Medicine, Innsbruck, Austria)

09:00 **Session I – Biological studies (Chairmen: Günther Gastl & Markus Herrmann)**

Growing gingival cells: new clinical applications for odontostomatology

Oriana Trubiani (University of Medicine Chieti)

In vitro study on megakaryoblastic leukemia lineages to test anagrelide effect on GATA-1 mutation

Chiara Tupini (University of Ferrara)

Molecular and radiological correlations in non small cell lung cancers (nscLcs) at advanced stages

Andrea Ambrosini, Antonio Ruiu (Pathology Dept, Bolzano)

Detection of soluble epcam (sepcam) in malignant ascites predicts poor overall survival in patients treated with catumaxomab

Gilbert Spizzo (Oncology Dept, Merano)

Telomeres: The role of one carbon metabolites in the epigenetic regulation of telomere length: results from a prospective study of B and/or D vitamins supplementation

Irene Pusceddu (Central Laboratory, Bolzano)

10:30 **Coffee Break**

11:00 **Session II – Laboratory & clinical issues (Chairmen: Gilbert Spizzo, Guido Mazzoleni)**

The role of next generation sequencing

Alberta Leon (Research & Innovation, Padua)

The effectiveness of preoperative routine testing – a systematic review

Matthias Bock (Anaesthesiology, Bolzano)

Vitamin D and cardiovascular disease – insights from the field trial

Markus Herrmann (Central Laboratory, Bolzano)

Low cost Regenerative Medicine

Angela Maria Di Pierro (Central Laboratory, Bolzano)

Circulating microparticles: ...What else?

Andrea Piccin (Haematology Dept, Bolzano)

12:30 **Lunch**

13:30 **Session IIIa – Clinical studies (Chairmen: Christian Josef Wiedermann, Andrea Piccin)**

TDM of aripiprazole in a naturalistic setting: the best way to optimize patient's response

Andreas Conca & Ignazio Maniscalco (Psychiatry Dept. Bolzano)

Severe skin radiodermatitis fully recovered using “platelet-gel”

Fabrizio Fontanella (Odontostomatology Service, Bolzano)

Morbus Chron and Colitis Ulcerosa: new clinical aspects

Federico Martin (Surgery Dept, Bolzano)

Glucose derailments in clinically stable very low birth weight infants on total enteral nutrition

Alex Staffler^{1,2}, Hubert Messner ¹

1) Department of Neonatology, Central Teaching Hospital of Bolzano/Bozen, Italy

2) Department of Neonatology, Perinatal Centre Großhadern, LMU Munich

Impact of a new clinical care pathway on utilization and costs of parenteral nutrition in a tertiary hospital

Michael Kob & Lucio Lucchin (Clinical Nutrition, Bolzano)

Diagnostic yield of tilt table testing in predicting recurrence of neurally mediated syncope in patients with pacemaker selected by implantable loop recorder

Matthias Unterhuber & Marco Tomaino & Luca Donazzan & Massimiliano Manfrin

(Cardiology Dept, Bolzano)

15:00 **Coffe Break**

15:30 **Session IIIb – Clinical studies (Chairmen: Ivo Gentilini, Klaus Eisendle)**

High dose sequential chemotherapy with rituximab and ASCT as first line therapy in adult MCL patients: results of the first interim analysis

Michael Mian (Haematology Dept, Bolzano)

The clinical significance of p53 in diffuse large B cell lymphoma

Daisy Corvetta (Pathology Dept, Bolzano)

Expression of full length or truncated epcam in solid tumors

Dominic Fong (Oncology Dept, Merano)

Genetic polymorphisms of EGF 5'-UTR in patients with glioma: a possible predictive marker of outcome

Giovanna Cipollini, Emanuela Vattemi (Oncology Dept, Bolzano)

Open access and scientific fraud - publish or perish?

Christian Josef Wiedermann (Internal Medicine Dept, Bolzano)

Surgical treatment of pyoderma gangrenosum with negative wound pressure therapy and split skin grafting

Maria Pichler & Klaus Eisendle (Dermatology Dept, Bolzano)

17:00 **Evaluation Test**

17:30 **End of the Congress**
